

STRONGER COMMUNITIES

Our work builds stronger communities, able to advocate for lasting improvements in health, nutrition, and education.

NATIONAL CAPACITY

Our work strengthens national capacity to address the most urgent health needs in Africa, Asia, Latin America, and the Middle East—from HIV/AIDS and reproductive health to maternal health.

The Health Policy Project is a five-year cooperative agreement funded by the U.S. Agency for International Development under Agreement No. AID-OAA-A-10-00067, beginning September 30, 2010. It is implemented by Futures Group, in collaboration with CEDPA (CEDPA is now a part of Plan International USA), Futures Institute, Partners in Population and Development, Africa Regional Office (PRD ARO), Population Reference Bureau (PRB), RTI International, and White Ribbon Alliance for Safe Motherhood (WRA).

The information provided in this document is not official U.S. Government information and does not necessarily represent the views or positions of the U.S. Agency for International Development.

How to Work with Us

For information on how to work with the Health Policy Project, please contact Linda Cahaelen at USAID:

POLICY CHANGE

We support policy change that fosters sustainable and equitable health services. We help developing countries address gender-based violence, stigma and discrimination, and other conditions that contribute to poor health outcomes.

.....

EFFICIENCY & EFFECTIVENESS

We improve the efficiency and effectiveness of healthcare by strengthening health finance systems and helping countries determine which programs will have the greatest impact.

BENEFITING THE VULNERABLE

Our work benefits society's most vulnerable members. We work to strengthen civil society organizations, such as rural women's networks, to play an active and effective role in advancing public health.

The Health Policy Project helps countries bring about real change in the health of people and communities

ACCOUNTABILITY & TRANSPARENCY

We promote accountability and transparent governance. The Health Policy Project helps civil society groups hold governments accountable for meeting the health needs of all people, including marginalized groups.

.....

ACTION & EVIDENCE

We inspire action with evidence. We develop models and scenarios that help decisionmakers devise effective solutions to health and development challenges.
